Self-directed, 2025

## STRENGTHS

Responsive Design  
API Integration  
Performance Optimization  
Client Communication  
Cross-browser Compatibility  
Agile / Self-managed

## LANGUAGES

English — Fluent  
Igbo — Native

## PROFESSIONAL SUMMARY

Results-driven Full Stack Web Developer with 3+ years of hands-on experience designing, building, and deploying scalable, high-performance web applications. Proficient in **PHP/Laravel, JavaScript, HTML/CSS**, and relational databases, with a proven track record of delivering responsive, cross-device web solutions that measurably improve user engagement and client satisfaction. Adept at translating business requirements into clean, maintainable code — from secure authentication systems and RESTful API integrations to e-commerce platforms and dynamic dashboards.

## KEY ACHIEVEMENTS

**Delivered a production-grade e-commerce platform (FashionCart)** built with Laravel & MySQL, featuring secure payment integration, role-based admin dashboard, and product management — deployed live.

**Reduced average page load time by ~40%** on client sites through asset minification, lazy-loading, and database query optimisation with Laravel Eloquent.

**Successfully delivered 8+ web projects** including portfolios, business websites, booking platforms, and dashboards — achieving 5-star satisfaction from 15+ clients.

**Built and deployed a fully responsive analytics dashboard** featuring real-time data visualisation and adaptive layouts across all devices.

## WORK EXPERIENCE

### Full Stack Web Developer

Solo-Tech AI · Onitsha, Anambra State

Jan 2024 - Dec 2025

- ▶ Designed and developed responsive, mobile-first web applications using Laravel, Bootstrap, HTML/CSS, and JavaScript.
- ▶ Implemented secure user authentication with role-based access control (RBAC), reducing unauthorised access to zero.
- ▶ Collaborated with UI/UX designers to translate Figma wireframes into pixel-perfect, interactive interfaces.
- ▶ Integrated third-party APIs including payment gateways and booking systems, improving user conversion rates.
- ▶ Optimised database schemas and Eloquent queries, improving response time by ~40% on high-traffic pages.
- ▶ Maintained client websites with regular security audits, dependency upgrades, and performance improvements.

### Freelance Web Developer

Self-Employed · Remote

2022 - 2024

- ▶ Independently scoped, designed, and delivered 8+ client-facing web projects from requirements to deployment.
- ▶ Built custom portfolio sites, blogs, and business landing pages with full cross-browser compatibility.
- ▶ Advised clients on domain setup, hosting (cPanel), and maintenance best practices, earning repeat business.
- ▶ Maintained clean, version-controlled codebases using Git and GitHub for smooth handover and maintainability.

### Self-Initiated Full Stack Project Lead

Personal Project · Remote

Jan 2025 - Present

- ▶ Architected a full-stack web app using Laravel, MySQL, JavaScript, HTML, and CSS with end-to-end functionality.
- ▶ Implemented multi-step validation, secure session authentication, RESTful APIs, and a responsive admin dashboard.
- ▶ Deployed on Vercel with continuous integration, achieving 99%+ uptime and fast global response times.

## EDUCATION

**B.Sc. Banking & Finance**  
**University of Nigeria, Nsukka · 2020 - 2024**

Analytical thinking, data interpretation, and problem-solving skills applied to building efficient, business-oriented web applications.
